

## PROJECT FOCUS: COLLABORATION BUILDING LEADERSHIP

### TEAM LEADERSHIP GOALS

- Improve relationships among team and work as a unit
- Strengthen the inter-sectoral collaborative and engagement of members
- Develop skills to frame our message

### INDIVIDUAL LEADERSHIP GROWTH

- Shared responsibility - different paths can end with same result
- New ability to step out of the trenches and see the big picture
- Shift to systems, policies, environment focus vs. programmatic focus

### LEADERSHIP CHALLENGES

- Coordinating times for meetings
- Differing views/perspectives
- Commitment to next process

## APPLIED HEALTH LEADERSHIP PROJECT

### TO CREATE A THRIVING COMMUNITY WITH HEALTHY FAMILIES

#### BIG PICTURE CHANGES

- Increased desire within the community to align efforts for bigger impact
- Creating a shared vision **with** the collaborative rather than **for** the collaborative
- Shared responsibility among the collaborative

#### PROJECT OUTCOMES

- Improved relationships due to active listening and questioning
- Significant change in how we function as individuals & as collaborative driven by an organic energy around the impact we can make together
- Purposeful meetings that focus on mutual trust, engaging dialogue, hands on activities, and action planning
- Increased engagement demonstrated by charter work group volunteers
- Comfort with tension and navigating it in meetings
- Member feedback about personal connection and how they are excited to be a part of the direction the collaborative is going

## THE FUTURE
